

# HOMECLEANSE GUARDIAN

## What Is HomeCleanse Guardian?

The HomeCleanse Guardian is not just a sensor—it's a guardian angel for your air.

With 24/7 monitoring, real-time alerts, and Wi-Fi or Ethernet connectivity, Guardian watches over your home's air even after the remediation crew has left.

Every HomeCleanse Treatment Plan includes the Guardian hardware, making it a seamless part of the remediation journey. Monthly monitoring subscriptions and dashboard access are available separately.

## Why It Matters: From One-Time Fix To Ongoing Protection

Here's how most remediation companies operate:

They come in, do the job, and leave. Maybe you get a report. Maybe you don't. If air quality changes again, you're on your own.

HomeCleanse flips the script.

With Guardian, we stay involved. We monitor your home's air in real time, long after remediation is complete. We help verify that your home stays safe. And if something goes wrong—we call you first

## A New Kind Of Customer Relationship

Guardian redefines our relationship with clients.

### Most Companies:

Transaction ends when the job is done.

### HomeCleanse:

The Relationship begins when the job is done.

This is our transition from remediation company  
→ air quality partner.

It's how we turn trust into loyalty, and loyalty into referrals.

It's How We Turn Trust Into  
Loyalty, And Loyalty Into Referrals.

## The Guardian In Action

Connects via WiFi or Ethernet.

24/7 monitoring with real-time alerts.

Tracks changes in air quality over time.

Sleek, simple design for any home.

Detects abnormal conditions before they become health risks.

Alerts both the client and HomeCleanse.

Helps validate success of 10-year encapsulation warranty.

When paired with our monitoring dashboard, clients can view their indoor air data anytime, anywhere.

# HomeCleanse Vs. "Set It And Forget It" Companies

HomeCleanse Guardian	Traditional Remediation Company
Ongoing Monitoring	One-time Service
Alerts + Live Support	No Follow-Up
Client Dashboard Access	No Visibility Post-Job
Integrated Warranty Support	No Accountability
Air Quality as a Service	Remediation as a Transaction

## Your Alarm Protects Your Valuables. But What About Your Health?

Guardian doesn't just measure your air. It protects it.

When other companies walk out the front door—we stay.

Guardian is peace of mind in a box.

Air quality doesn't sleep. That's why we built Guardian.

The job's not done until the air stays clean—and Guardian ensures it does.

WE DON'T JUST FIX HOMES. WE  
**DEFEND, PROTECT AND GUARD THEM**

That HomeCleanse isn't here for a one-time job. We're here for the long haul—to protect our clients, their homes, and their health.
