

HOME CLEANSE SHIELD

www.homecleanse.com

World-Class Defense Against Mold

The HomeCleanse Shield protects your air, your health, and your HVAC, so your family breathes better, every day. It is a next-generation HVAC filtration system designed to defend your home from mold and other airborne contaminants at the source.

It combines **MERV 16-grade filtration** with the pressure drop of a **MERV 8**, paired with patented **DFS (Disinfecting Filtration System)** technology. The result: powerful filtration without compromising airflow or system performance.

The Shield captures **ultrafine particles down to 7 nanometers**—including mold spores, bacteria, allergens, and toxic ultrafine particles most filters miss.

A SHIELD THAT PROTECTS EVERYTHING.

This is the last filter you'll buy for the next 3 years..

Key Features

MERV 16 performance
with low resistance

Patented DFS technology that
traps nanoscopic particles

Ultra-long life lasts 2–3 years

Protects HVAC coils by
reducing microbial growth

Whole-home purification
through your return system

Your HVAC Is The Lungs Of Your Home. The Homecleanse Shield Keeps Them Healthy.

- Prevents microbial overgrowth before it starts.
- Blocks 95%+ of mold-sized particles.
- Turns your HVAC into a massive air purifier.
- Delivers high filtration power without damaging airflow.
- Eliminates frequent, low-quality filter changes.
- Filters what others miss—ultrafine mold, bacteria, and toxins.

Is The HomeCleanse Shield Right For You?

If you're tired of changing filters every 90 days with little to no improvement in symptoms, concerned about hidden mold risks in your HVAC, and ready to move beyond superficial fixes—the HomeCleanse Shield was designed with you in mind.

PROTECT YOUR AIR. **PROTECT YOUR HVAC.**
PROTECT YOUR HOME.
